

Polsinelli Represents Inspectorio in Growth Investment from Apax Digital Funds

(Oct. 15, 2026) Polsinelli recently represented long-time client Inspectorio, an AI-powered supply chain quality and risk management platform, in connection with a growth investment from the Apax Digital Funds, the growth equity arm of Apax Partners LLP.

Founded in 2016, Inspectorio helps companies manage quality and compliance across complex production chains through a platform that connects more than 40,000 organizations worldwide. The investment will support continued product development, including the expansion of Paramo, Inspectorio's AI platform for predictive risk insights and performance benchmarking. It will also help the company enter new industries and build out its commercial infrastructure.

The transaction comes as increasingly complex global supply chains are driving demand for greater visibility and earlier risk detection. As brands and retailers move away from fragmented manual processes, Inspectorio's platform enables them to coordinate quality, compliance and traceability workflows across suppliers and other production-chain participants.

More information about this investment can be found [here](#).

The Polsinelli team involved in this matter was led by Venture Capital & Emerging Growth Companies Practice Co-Chair Matt Eckert and included Shareholder Amanda Norcross, Associates Zachary W. Heath, Michael Romeo and Dayonni M. Phillips.
