akakoliris@polsinelli.com

Athena Kakoliris supports the Intellectual Property Department with an emphasis on patent prosecution. She oversees domestic and foreign patent prosecution matters, coordinating with inventors, foreign associates and the U.S. Patent and Trademark Office to ensure timely and accurate filings.

Athena monitors patent dockets, maintains portfolio records and prepares formal documents and reporting materials. Her work spans a range of electrical engineering and computer science technologies, including artificial intelligence, machine learning and software innovations.

Athena's organizational skills and technical background help streamline the firm's prosecution processes and support clients in protecting their innovations efficiently.
