Bradley Cardon draws upon a rich history of working in the mechanical and electro-mechanical arts, bringing a practical perspective to the field of patent preparation and prosecution. This background allows him to see things from the client's perspective, to better understand the finer details and particulars of their inventions, and to help develop a robust intellectual property portfolio that enables an organization to achieve its business goals. As a shareholder, Brad will develop and grow client patent portfolios, conduct due diligence research and provide counsel to clients on matters pertaining to patentability, infringement, validity and freedom-to-practice opinions.

Brad also has particular technical and patent prosecution experience in the following areas:

- Medical Devices
- Aviation/Aerospace/Propulsion
