ASSOCIATE

Dallas, TX | 214.270.2367

jgersten@polsinelli.com

Jay Gersten is a patent professional with experience prosecuting patents across diverse industries. His experience includes handling patent matters in medical devices, aerospace and Department of Defense related technologies, mechanical engineering, consumer devices and design patents. He works closely with Polsinelli attorneys to draft and prosecute patent applications, manage portfolios, prepare opinions and advise on strategies to protect emerging technologies in the U.S. and abroad. Jay's work helps clients secure, strengthen and maximize the value of their intellectual property in a fast-moving market.
