Matthew Chung is a registered patent attorney who helps clients protect innovations and strategically grow their intellectual property portfolios. Leveraging his strong academic background in biology and computer science, Matt assists clients in preparing and prosecuting patent applications in the converging fields of life sciences and software. Matt has extensive experience in various technologies, including:

- Bioinformatics
- Genomics and Proteomics
- Medical diagnostics
- Artificial intelligence and Machine learning
- Image and video processing
- Natural language processing
- Data security
- Wireless networks

Matt advises startups, academic institutions and Fortune 100 companies in the fields of artificial intelligence and machine learning. Based on his deep understanding of the specific business and legal challenges in patent prosecution, Matt provides exceptional service and shares valuable insights for clients.

In addition, Matt also assists with government contracts. Specifically, he assists clients in navigating the intricate issues surrounding patent and data rights in government contracts. On several occasions, Matt has successfully negotiated with government agencies to allow clients to maintain ownership of their intellectual property.

Before joining private practice, Matt served as in-house counsel for a Fortune 100 company, where he managed a patent portfolio in diverse technologies such as artificial intelligence, machine learning, natural language processing, and wireless networking. He also served as a lead intellectual property counsel in the acquisition of several technology companies.
