

Michael J. Moedritzer

ASSOCIATE

Kansas City, MO | 816.572.4486

mmoedritzer@polsinelli.com

Michael Moedritzer focuses his practice on domestic and international patent prosecution. He works with clients to revise, analyze and evaluate intellectual property-related issues to provide comprehensive overview of the portfolio.

Michael is a part of the Biotechnology and Life Sciences Patent Prosecution Group in Kansas City. After receiving his degree in Biological Sciences, Michael worked in academic research focusing on the genetics behind various embryonic facial malformations. He has experience in genetic engineering, molecular biology, and biochemical research.

Michael uses his experience in biochemical research and the legal field to assist clients with any of their intellectual property needs.
