

# Rebecca A. Hammer

PATENT AGENT

Phoenix, AZ | 602.650.2328

[rhammer@polsinelli.com](mailto:rhammer@polsinelli.com)

Rebecca Hammer assists with patent prosecution and intellectual property matters, serving clients in a wide range of technology fields including electrical engineering and computer science. She prepares utility patent applications and manages prosecution.

Known for precise patent drawings, Rebecca often leads figure conceptualization and refinement to surface key novelties and streamline both drafting and examination. She works extensively with universities and medical research centers, and integrates academic and technical literature into cohesive, claim-supportive disclosures with aligned figures. Her technical coverage includes electromechanical systems, medical devices, embedded electronics, sensors, autonomous vehicle perception systems, signal processing and quantum computing.

## Education
