[sjpatel@polsinelli.com](mailto:sjpatel@polsinelli.com)

Shaleen Patel represents clients in complex intellectual property disputes. Drawing on his chemical engineering and deep technical experience, he develops litigation strategies grounded in both legal and technical analysis.

His practice focuses on patents, trademarks, copyright and university licensing matters. Shaleen has examined live witnesses at trial and regularly manages bet-the-company discovery, including taking depositions of senior corporate executives—up to corporate presidents—and expert witnesses.

Shaleen's matters frequently involve cutting-edge technologies, including telecommunications systems and standards (wireless and wireline protocols), medical devices, and fintech platforms and payment technologies. He works closely with in-house counsel and business stakeholders from early case assessment through trial to deliver practical, business-focused strategies.

A frequent author and speaker, Shaleen presents emerging issues in patent, trademark and copyright law, including CLE programs addressing the intersection of intellectual property and artificial intelligence.
