Warefta Hasan serves each client's full range of intellectual property needs. She actively works to protect clients' intellectual property by preparing and prosecuting U.S. and international patent applications. Prior to working in intellectual property, Warefta worked as a Research Scientist in a biotech start-up, chemicals company, and CDMO. She has also worked as a Patent Engineer at a boutique intellectual property firm where she worked with oil & gas, chemicals, and university clients. She leverages her advanced degree to provide a unique perspective on complex issues in the chemicals, life sciences, and pharmaceutical industries.
